

SRI LANKA LAW COLLEGE

NOTICE

CLARIFICATION REGARDING ELECTIVES AND OPTIONAL SUBJECTS

The following are the electives and optional subjects available in the Sri Lanka Law College curriculum for the academic year 2024.

Preliminary Year Electives:

- Environmental Law
- Conflict of Laws

Intermediate Year Electives:

- International Law
- Intellectual Property Law
- Revenue Law
- Construction and Arbitration Law

Final Year Optional Subjects:

- Cyber Law
- Finance Law

Please note the following guidelines:

1. Preliminary and Intermediate Year Students are required to select one elective subject relevant to their year of study. The marks obtained in the elective subject will contribute to their exam average.
2. Final Year Students have the option to choose one or more optional subjects. However, the marks obtained in these subjects will **not** contribute to their exam average.

3. Cross-Year Selection

If a Final Year student wishes to take an elective subject offered in the Preliminary or Intermediate years, they may do so as an optional subject. However, they can only sit for the exam after completing their Final Year examination.

Similarly, Preliminary and Intermediate Year students can choose optional subjects offered in the Final Year, but they can only sit for these exams after completing their current year examination.

4. Apprentices and Lawyers have the flexibility to select any elective or optional subjects and can sit for the examination at the next available opportunity.
